

Online concussion testing. Please use the link provided:

<https://www.impacttestonline.com/customercenter/>

First page should say:

Client Login

Welcome to the Customer Center!

Email: jcline@isd1.org (this is the id that is used to sign into the system)

Password: gobblers (password for the system)

(please click on the sign in button on the screen)

Second Page should say:

Welcome Jason!

Test Management

Click on the "**START NEW TEST**" button (first row – second option in the first row)

Third Page should say:

Start New Test

Previously Tested Individuals:

Please use this option: you start typing your name and it will locate your "record" for you to select your name and birth date. Once you make that selection then you use the "**Launch Baseline Test**" option. *Remember to complete the entire test at one time, it will not let you "save" and go back to the test later. This is NOT a pass/fail test, it just gives us a point at which you are at today. The test usually takes ½ hour to 45 minutes to complete.*

If you have NOT tested using this system previously:

First time test takers:

Please pick the organization you'd like the test taker to be tested under:

(drop down selection button - - This is where you indicate Aitkin Public Schools)

Then make the selection: "**Launch Baseline Test**". This will step you through a series of questions – name, date of birth, etc. After all the personal information has been entered then the test will start automatically.

YOU DO NOT NEED TO PRINT ANY RESULTS. WE PULL REPORTS TO SEE WHO HAS COMPLETED THE TEST.
