

Rippleside Nutriman Garden

Rippleside Elementary is currently looking for families to adopt the Nutriman Garden for one week this summer. The garden encourages the habit of healthy eating. Produce from the garden is served to Kindergarten and 1st grade students through the healthy snack program. Extra produce is used for taste testing throughout the summer and supplements school lunches K-6.

Responsibilities during the week include watering, weeding, turning over compost, picking any produce and enjoying this beautiful space!

If there are veggies to harvest, please contact Shelly Nelson before picking.

snelson@isd1.org

Return portion below to school office or

Email your contact information and request to snelson@isd1.org

Yes, I would like to adopt the garden for one week during the summer. I will help with all the duties and notify the contact person if there is a need for harvesting or if there are any concerns that need to be addressed. We are looking for volunteers starting June 5th. The month or week I prefer to volunteer during is _____.
